

Definitions

Multi cultural Tales

These are stories which are indigenous to a culture. they reflect the teachings and traditions of a group of people. They tell lessons that are important for a people to know and remember.

Tall Tales

These stories originated in the United States in the early wild west frontier years. They tell about heroes who were bigger than life.

Pourquoi Tales

Pourquoi means why in French. These stories explain why something in the natural world is the way it is.

Tales Twice Told

This category is for those stories which have withstood the test of time and are being rewritten with a new twist--not always modern, though. They are fanciful new creations based on older folk or fairy tales.
