

STUDENT RUBRIC FOR AUDIENCE EVALUATION OF GROUP PROJECTS AND PRESENTATIONS

	Excellent	Good	Fair	Needs Improvement
Quality of Overall Presentation	Held my attention, I learned a lot	I was interested most of the time	Provided some knowledge I can use	I learned a little but didn't get much out of it
Organization of Information	Everything seemed well organized and easy to follow	I was able to make connections among parts of the presentation	Good information presented but difficult to see the relationships	Few relationships among the various pieces of the information provided
Clarity of Information	I was able to easily understand all the information provided	Most information made sense to me	Some information was easy to understand, while some was more difficult	A few things made sense
Quality and Usefulness of the Information	All information presented was very useful and increased my knowledge of the subject	The information was mostly useful and helped me understand the subject	Some of the information added to my knowledge of the subject	I got a little new information from this presentation.
Student participation	We were all actively involved and worked together to discover new knowledge	We all participated in an activity that was like real life and helped us learn a lot	We were surprised and that helped us learn.	We were asked to talk about our experiences related to the subject
